

Add tutoring section and local deploy

Exported on 8/24/2026 at 16:38:00 EDT from Cursor

User

can you remind me how to locally deploy this website?

Cursor

This is a **static site** — plain HTML, CSS, and JS with no build step or `package.json`. It's hosted on GitHub Pages at `cdonnay.github.io`.

Local preview

From the repo root:

```
cd /Users/cdonnay/Documents/GitHub/cdonnay
python3 -m http.server 8000
```

Then open `http://localhost:8000`.

Stop the server with `Ctrl+C`.

Other options

Node (if you have it):

```
npx serve .
```

VS Code / Cursor: Install the “Live Server” extension, right-click `index.html` → “Open with Live Server”.

Quick check: You can also double-click `index.html` to open it in the browser. For this site that usually works, but a local server is more reliable (fonts, paths, etc.).

Production deploy

Push to `main` on GitHub — GitHub Pages serves it automatically from this repo. No separate deploy command.

User

please add a section that displays in the header bar called “Tutoring”

please use palceholder text in the section. Put this below portfolio and before contact

Cursor

I'll inspect `index.html` for the header nav and section layout so we can add Tutoring between Portfolio and Contact.

Adding the header nav link and a Tutoring section between Portfolio and Contact, matching the About section structure.

Updated the navbar to include a Tutoring link between Portfolio and Contact:

```
<li class="nav-item">
  <a href="#portfolio" class="nav-link smoothScroll">Portfolio</a>
</li>

<li class="nav-item">
  <a href="#tutoring" class="nav-link smoothScroll">Tutoring</a>
</li>

<li class="nav-item">
  <a href="#contact" class="nav-link smoothScroll">Contact</a>
</li>
```

Added a new Tutoring section between Portfolio and Contact:

```
<section class="about section-padding" id="tutoring">
  <div class="container">
    <div class="row">
      <div class="col-lg-12 col-md-12 col-12">
        <h3 class="mb-4">Tutoring</h3>

        <p>
          Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod
          incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam
          exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat
        </p>

        <p>
          Duis aute irure dolor in reprehenderit in voluptate velit esse cillum
          fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident
          culpa qui officia deserunt mollit anim id est laborum.
        </p>
      </div>
    </div>
  </div>
</section>
```

Done. Two updates in `index.html`:

1. **Header nav** — Added a “Tutoring” link between Portfolio and Contact; it smooth-scrolls to **#tutoring**.
2. **Tutoring section** — New section between Portfolio and Contact with placeholder lorem ipsum text, styled like the About section.

Preview locally with:

```
cd /Users/cdonnay/Documents/GitHub/cdonnay && python3 -m http.server 8000
```

Then open <http://localhost:8000> and click “Tutoring” in the nav.

User

please add this chat history to the `ai_chat` directory, then link to it at the bottom of my site like the other two chats

Cursor

Checking how existing chat files are stored and linked on the site, then exporting this conversation to `ai_chats/` and adding a footer link.
